Cover Letter

Hello, I would like to introduce myself in my cover letter,  
My Name is Jaxsn (Jackson) **860-724-7448**

My Skilled Music Titles consist of:

1. Composer - I can play all instruments needed to create a piece
2. Sound designer - I can create an effect, where there is no effect
3. Lyricist (Songwriter) - I can write hooks
4. Singer / Rapper - I can add vocals
5. Audio Engineer - I can make Professional mixes
6. Midi Specialist - I can bring a recording to another level

Here is a link to my current AUDIO REEL:

<http://jaxsn.com/composer.html>

At the link you will hear original music, for movie scores, video games, etc.  
from hi energy sublime, to club dance scenes to scary, and more.  
I hope you can find a place for my talent on your project.

I am a very hard worker that gives a quick turn around on deadlines.  
I own my own recording studio and I produce all my work myself,  
so there is no "waiting for a middle man to get the project done" issue.  
I am highly technically inclined, meaning I will resolve a studio equipment problem within  
5-15 minutes, if this kind of issue comes up.

I'm well established, and can deliver work over the internet in a timely fashion  
with ease.

Please view my resum'e if needed  
Thank You
